Businesses can now have it all: less cost and more speed. This high-speed inkjet all-in-one offers demanding businesses a genuine alternative to laser that can save up to 50% on the cost of color printing. The series offers further savings with a super-fast automatic double-sided printing function, reducing paper usage and costs by up to 50%. Businesses can also benefit from lower ink costs thanks to a choice of high-yield cartridges. ENERGY STAR-qualified reduced power consumption brings additional cost and energy savings. Sharp, business-quality documents featuring both text and graphics are delivered at a fast print speed of 16 mono pages per minute and 11 color pages per minute, and the print resolution of 4800 x 1200 dpi is much higher than comparative lasers.
